

1 Instructions for the exam

Dear all,

please use the SVN repository at

<https://subversion.rz.uni-jena.de/svn/ewf/workflow>

1. Make a checkout and find the file `exam2011.Rnw`
2. For each participant of the exam you find a section in the file with your name. When you compile and typeset the file you find in each section 100 numbers. Actually, you will realise that not all numbers fit on the page.

Find out how these 100 numbers are generated and calculate the mean of the 100 numbers in your section (including the ones that did not fit on the page) and enter this value into your section of the file `exam2011.Rnw`

3. Before Friday, 22. June, 9:00AM: Commit your changes (with your answers) to the repository.
4. Also before Friday, 22. June, 9:00AM: Find out what part of the file was changed from the first to the second revision and send me your answer as an email.
