

Double Degree Master Learning agreement form

Jena - Trento

26. 8. 2020

Students who start the Double Degree Master in Winter 2018/19 or later should use this form to describe their study plan.

How to complete the form: Students who spend their first year in Trento and their second year in Jena complete section 1 of this form (see page 2). Students who spend their first year in Jena and their second year in Trento complete section 2 of this form (see page 3).

In the “Date”-column fill in in which term you have taken or you plan to take the course. E.g.:

Course	Date
Advanced econometrics	2021

If you plan to deviate from the proposed syllabus, please add a note to the form. Please explain each deviation (course where you deviate) with a single, numbered note. In this note explain how you substitute the course and who approves the substitution. Regardless whether you take the course according to the

syllabus or whether you substitute: The “Date” column always contains the term when you actually take the course (or its replacement).

Course	Date
Advanced econometrics	2021 see note 1

Collect all your notes at the end, e.g. like this:

Note 1: Advanced econometrics has been substituted by advanced statistics for economists which will be given in Summer 2021. Prof. Smith agrees with this procedure.

Note 2: I will take the course “Advanced Microeconomics” not in Jena but its equivalent “Microeconomics and Game Theory” in Trento.

If possible, please complete the form on a computer, then print and sign it.

1 Trento - Jena

This part of the form is only completed by students who start in Trento.

Name

Date

Signature:
